Pavani - 2007

You can bring new life to more children like Pavani

Your prayerful gift today will help provide a home and education to children like Pavani, an orphan who grew up in New Life Children's Home through generous support from friends like you.

Pavani today

"New Life Children Home gave me a new hope for my future. Nava Jeevan Christian School gave me an education to achieve my goals."

**Please give the
hope and love of
Jesus Christ** to more children in India by giving to help more students come to Nava Jeevan "New Life" Christian School.

More children are waiting for the Nava Jeevan School Bus...

For safety reasons, the two old Nava Jeevan “New Life” school buses have been decommissioned. Hundreds more children in the surrounding villages are waiting for the second Nava Jeevan bus to come and bring them to school.

So thank you for giving today to help reach the \$60,000 goal for the second Nava Jeevan School bus – and for bringing the hope of a world-class education to the kids of India!

Help keep the light burning bright for kids like Pavani

In India, the power can go out daily—and that means school and other vital services that the children of Nava Jeevan need are abruptly cut off.

Your gift today can help provide solar panels to ensure Nava Jeevan students have the power to finish strong. Simply check off the solar panel project on the response card and send it in with your gift. Thank you!

*“For this purpose the Son of God was manifested,
that He might destroy the works of the devil.”*

- I John 3:8

November 2017

Dear Friend of India,

Right now, our enemy is stealing, killing, and destroying lives — especially the littlest and most vulnerable ones here in India, like Pavani.

Pavani was only five years old when her father died from tuberculosis. Then at six years, her mother died from an accidental fall in their home. Loneliness and confusion crushed little Pavani. They were a happy family... and then they were gone.

This tragedy is the work of our enemy that Christ came to destroy! And as His hands and feet, we have the privilege of joining Him in this mission.

So I'm writing you today on behalf of hundreds of little girls and boys like Pavani here in India. They can't write you... *They can't reach you... But they need your help.*

Pavani's grandparents wanted to give her the very best education — but the price of a quality education was hopelessly out of reach.

But with a scholarship funded by friends like you, Pavani was able to go to Nava Jeevan ("New Life") Christian School where she...

- Received school supplies and a fresh, clean uniform,
- Learned to read, write, and speak English,
- Excelled in subjects like Math, Science, and History, and
- Experienced God's Presence in chapel services.

Gifts from supporters like you made all of this possible for Pavani—and when she needed to stay at New Life Children's Home, these gifts gave her a loving home where her life could be restored. There are hundreds more children like Pavani who need a loving, safe home and a place to learn...

That's why I'm asking you to prayerfully give as generously as you can today to help complete two critical projects for children like Pavani:

1. Purchasing a new school bus, and
2. Purchasing solar panels to provide stable, clean energy.

The two old buses at Nava Jeevan Christian School are no longer legally allowed to carry children to school for safety reasons.

Compassionate gifts from friends like you provided the first bus — and **your gift today can help reach the \$60,000 still needed** to purchase the second school bus so more students can attend Nava Jeevan.

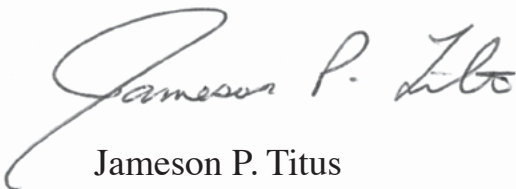

Or, you can give today to purchase solar panels to provide Nava Jeevan students stable power for lights, computers, and everyday needs.

In modern, developed countries electricity is a constant blessing — but where we are in India, the power can go out daily.

So please fill out the enclosed reply card right now and send your most generous gift so that more children can receive a brand-new life.

Thank you for your gift today — and for helping bring the love, hope, and joy of Jesus Christ to more children in India!

For India and her people,

Jameson P. Titus

P.S. There are many kids here waiting for a chance to attend school. Would you sit down right now...

And send your very best gift so more children can come and receive a brand-new life filled with hope? *Thank you!*
